

STRATEGIC PLAN 2026-2028

MISSION

FSSA is the leading authority of special hazard fire protection.

VISION

Ensuring resilient fire protection for people, property, and the environment.

STRATEGIC PRIORITIES

ADVOCATE

Proactively influence, monitor and collaborate to support the fire protection industry.

Influence - Shape the regulatory and technical environment by leveraging internal resources and a position dedicated to advocacy.

Monitor - Continuous monitoring of governmental bodies and public policy, relying on committees and members to report policy issues.

Collaboration - Strengthen our mission by partnering with allied organizations with mutual interests through innovative ideas and technical resources.

SOLUTIONS

Leverage technology and industry expertise to identify and provide proven solutions.

Vigilance - Anticipate and report global trends, emerging issues, technologies, hazards, and industry needs to develop and respond with solutions.

Innovation - Identify industry needs and perform consistent related research via collaborative effort to develop proven solutions.

Value and Benefits - Provide opportunities for all members to connect and build relationships for expanded stakeholders.

KNOWLEDGE

Provide premier educational systems relevant to members and industry stakeholders.

Training - Position FSSA as the pre-eminent trusted resource for training, educational advancement, and evolving industry solutions.

Engagement - Advance the quality, attendance, and value of the annual forum, webinars, regional training workshops, and town hall meetings.

Thought Leadership - Expand the purpose of the FSSA Educational Foundation to obtain greater funding to promote research and educational programs.
